DOLPHIN WATCHING

Join us for a morning trip into Aransas Bay to see Atlantic Bottle-nosed Dolphins. On this 1 hour plus trip we head out to the local shrimp boat fleet where the dolphins feed behind their nets. Not only will you get a great look at dolphins, you will learn how local shrimp are caught.

SUNSET CRUISE

We head over to the smooth protected waters along the San Jose Island shoreline to see birds and other wildlife and then watch the sunset over the bay. As we make our way back to the harbor, the lights of Rockport start to appear and twinkle on the horizon signaling the end of a perfect day.

A small cooler with your favorite sunset beverages and snacks are encouraged.
