202 N. Fulton Beach Road

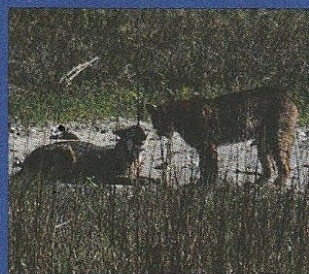

Capt. Tommy Moore Photos

We explore the remote shorelines of the Aransas National Wildlife Refuge in search of the endangered Whooping Cranes. Skimmer's shallow draft allows access to more habitats and species than any other high capacity vessel in the area. Explore the back bays where many species of waders, waterfowl, raptors, and shorebirds spend their winters. Groups up to 37 are welcome. We specialize in custom trips to observe specific species and habitats.

Please, no children under 12

You Never Know What You Will See!

We typically see 30-60 different species of birds and other animals on each trip. Learn to identify different species of birds or just relax and enjoy the scenery and abundant life the South Texas Coastal Bend has to offer

Coastal / Inland Birding Packages

Join our experienced guides to bird the Coastal Bend's inland hot spots. Learn to identify the over 100 species that can be found in our area.
